

## **Remote Keypad with Integrated Proximity Tag KPT-23**

*easy to install, simple to use, and operate the system at your fingertips!*

KPT-23 is an intelligent two-way wireless keypad which offers an easy-to-install solution. Integrated with proximity tag which can store security code for access, it is easier than ever for users to use their security system feature. With low profile and stylish look, KPT-23 matches and blends with any decoration, which is an ideal choice for any application!

Safeguarded by a Tamper Proof Switch, protects the enclosure from being opened or removed from the mounting surface. The Remote Keypad is powered by Lithium battery and consumes power only when in operation, thus ensuring long battery life.

### **Features:**

- Integrated with proximity tags
- A 16-button backlit keypad for easier night use
- Power conservation that consumes power only when in operation
- Low Battery detection
- Tamper protection protects the enclosure from being opened or removed from it' s mounting surface
