Remote Keypad KP-9 & KPA-9
– Easy to install, simple to use, and full system power at your fingertips!

■ **Two-Way Radio Communication**

■ **With Lithium Battery**

KP-9 is a wireless, high tech, and durabal remote keypad that allows you to control your security system from wherever it is deployed. It communicates with a Control Panel via radio wave, sending signals to "**Arm**", "**Part arm**", & "**Disarm**" the system.

Two-Way Radio Communication is used to guarantee successful transmission. It helps to indicate if the system is armed and to display any error events.

Safeguarded by a **Tamper Proof Switch**, protects the enclosure from being opened or removed from the mounting surface. **Power conservation** is another design feature; the Remote Keypad consumes power only when in operation, thus ensuring long battery life.

Features:

■ Single key press to **inquire System Mode** (Arm / Home / Disarm mode)

■ **2 Dual color LED** & **1 single color LED** for System Status, System Mode & Fault Indication

■ A 16-button **backlit keypad** for easier night use

■ Power conservation that consumes power only when in operation

■ Low Battery detection

■ Tamper protection protects the enclosure from being opened or removed from it's mounting surface

■ **IP-44** Water Proof

■ Compact & low profile

■ Complied with CE requirements

Specifications:

- Power: Lithium CR2450 battery x 1

- Battery life: 6 years or over[1]

- Radio frequency available:
KP-9-433:	433 MHz
KP-9-868:	868.6375 MHz Narrow FM
KPA-9:	868.35 MHz

- Range: 433 MHz or 868.35 MHz: over 200 meters in open space

  868.6375 MHz: over 300 meters in open space

- Operating temperature: -20° to 50°C

- Humidity: up to 95% non-condensing

- Dimensions: 103 X 72 X 18 mm

* Note[1]: Battery life is calculated at an average of 4 activations per day.
