# WCS-1A/E-ZBS  Smart Wall Appliance Switch

## Easily Control Any Home Appliance at One Touch of One Button

**WCS-1A-ZBS**

**WCS-1E-ZBS**

- **Easy installation – no wiring required**

- **Easy control of lighting or any home appliance**

- **Expansion of home automation options**

WCS-1A/E-ZBS is a Zigbee wall-mounted switch designed to remotely turn on/off lighting or any home appliance. The smart switch can be paired to any ZigBeee devices to facilitate the use of on/off on any home appliance or lighting.

The battery-operated WCS-1A/E-ZBS can be installed in any place of home without the limitation of hardwired power source. The completely wire-free wall appliance switch simplifies installation efforts and is ideal for the expansion of home automation options in new or retrofit home where cabling solution are limited.
